

SDG 15.4.3

Policy on hazardous waste disposal

1- Toxic waste containers

2- printer cartridge waste containers

3- DOTE, the governmental agent of the toxic waste treatment

The toxic and hazardous (chemical and biological) waste and useless printer cartridges in the UOS collected in special containers as a permanently storage. After that all these wastes handled by the agent from the Directorate of Thi-Qar Environment (DOTE)/ Ministry of Environment for treatment, And this task is one of the DOTE responsibility.
