

University access to local farmers and food producers

Year: 2023-2024

UOS always provides assistance in the local community supporting the start-up of financially and socially sustainable businesses through relevant education or resources (e.g. mentorship programmes, training workshops, access to university facilities).

1- Regularly drinking water monitoring, College of Agriculture.

2- Physical and chemical evaluation of multiuse water, College of Science.

3- Microbiological evaluation of multiuse water, College of Basic Education.
